Candylad Coin Whitepaper

Introduction:

The Candylad Coin is a legally certified company based in Dubai and a global initiative dedicated to developing an array in different kinds of programs to fight global crisis that we are facing today. To slow and in time reverse the effects of global warming, we need to evolve down-to-earth , help the people who are in need and build a better world to live in , that's our final targets, employing several activities including war refugee zone, the natural disaster, the poverty-sticken area and increased the effectiveness of the charity. We will accomplish these projects by applying increased public interest, corporate interest and progressive financing mechanisms. We will offer the Candylad Coin cryptocurrency directly to the investors by taking advantage of blockchain technology. Once certified, we will create a credit market, opening as an investment for companies and individuals to offset their footprint. They can accomplish this by purchasing credits from us and redeeming them on the blockchain, making everything transparent and verifiable.

Mission:

Admittance to business enterprise employment that can avail authorize them to create a best existence for themselves and their families. If the global economic system ran on a frequent set of standards that could not be influence by any fellowship or nation, the world would be a more fair and available spot and manlike progression would modify. Most important one is to build a better world to live in.

Vision:

We accomplished that digital currency will effect the global. This is what we got excited about when we first educated about blackcoin. Candylad Coin will be altogether self-reliant as we will fund our environmental programs and reinforcing stimulus our investors exploitation the profits we create from various state, such as selling registered carbon list, revenue improvement, government revenue from enterprise, trees produce, trade income and corporate use of our tree tracking utilization and most critically we're focusing on the people who are in need of help. We view blockchain technology as the future because it transfer the world in collaboration and avail to create a integrate, economic global economy. Unfortunately, a lot of blockchain technology still relies on carbon release energy sources. One of our compass is to change the carbon emissions from blockchain technology completely. We are also in the early level of developing to support in this project, which will be element unsupported and mainly used for certified accomplishment offsets to be proven and an environmentally friendly way to transfer funds worldwide. Candylad Coin's final vision is to create a blockchain 4.0 charity community. By empowering the development and application of Candylad Coin Token NFTs and Metaverse's AI smart games and the derivation of game peripheral products, the Candylad Coin Charity Foundation will be established in the later stage to carry out online and offline charity donations around the world. Candylad Coin's vision is to "perfectly combine blockchain and charity". Through the popularization of thoughts and the content of concern, more faith-based cryptocurrency supporter will be gathered to build a public welfare community. Candylad Coin & Candylad Coin prospect that every area of the world can have a sweet candy. And finally we are going to merge the charity and the blockchain .

A Short introductory to Defi:

DeFi, you can do most of the things that banks support — earn interest, borrow, lend, buy insurance, trade derivatives, trade assets, and more — but it's faster and doesn't require paperwork or a third party. As with crypto generally, DeFi is global, peer-to-peer (meaning directly between two people, not routed through a centralized system), pseudonymous, and open to all.

How many people investing in DeFi?

It is estimated that 27 million people, 8.3% of America's total population, currently own cryptocurrency. 16% of Americans say they have ever invested in, traded or used cryptocurrency. The vast majority of U.S. adults have heard at least a little about cryptocurrencies like Bitcoin or Ether, and 16% say they personally have invested in, traded or otherwise used one, according to a new Pew Research Center survey.

Why Metaverse :

The metaverse, a living and breathing space that blends physical and digital, is quickly evolving from a science fiction dream into a reality with endless possibilities. A world where people can interact virtually, create and exchange digital assets for real-world value, own digital land, engage with digitized real-world products and services and much more.

Standards Metaverse Key :

Backed by recent endorsements from major tech giants, metaverses are finally expanding into the mainstream.

All metaverses rely on internal tokens that can be bought, sold, exchanged, earned or even created by the users themselves.

In this article, we'll walk you through where and how to purchase Metaverse tokens on Binance with crypto or fiat.

Candylad Coin is helping to fight against the crisis world-wide.

A development performance of business leadership, authority officials and private citizens are concerned about the worldwide express of global warming and are purpose steps to reverse the substance. While some debate that "the Earth will heal itself," the natural processes for determination this manlike caused CO₂ from the standard atmosphere complex on the timescale of hundreds of thousands to millions of time period. Earth's self-recovery will not occur quickly enough to domain our cultural establishment and social group systems as they are. There is no question that global warming necessarily to be reserved. Despite the immense amounts of public funds and effort spent since the Earth Summit in Rio de Janeiro during the last 30 years led by the United Nations Organization (UN), the World Bank (WB), the Asian Development Bank (ADB), the African Development Bank (AfDB) along with others, yet the peace on global warming is yet to be won or even dilatory down. Nothing scheduled within the nearby future seems to offer much to perk the equality in favor of slowing down carbon release. Looking at all the available evidence, we can make two conclusions:

- The rate at which global warming occurs due to anthropogenic and other factors is far greater than human efforts to conflict the difficulty.
- The funds and resources spent to avoid release build-up and upgrade carbon segregation do not reach basic levels sufficiently or promptly. A close examination of these two factors disclose that the current condition quo may have influenced both prospect to some level, where the current rate of global warming is mainly superior today due to the inefficiency inherent in various organization complexities.

Meet with Candylad Coin

The ecological plan of Candylad Coin is NFTs avatar + Metaverse AI game development application, and game peripheral products incubation. The final vision of Candylad Coin, the establishment of a global online and offline charity foundation, allowing holders to hold While enjoying the huge legal document of wealth brought by economics in Candylad Coin Token, they are also contributing to charity and public social welfare invisibly and together with Candylad Coin, they will spread love to every area of the world.

Why with Candylad Coin

Headquartered in Dubai UAE, Candylad Coin Group was initiated by a world-renowned charitable fund company in conjunction with the world's top blockchain technology team. The company immersion on blockchain technology, clever contracts, initial coin contribution (Candylad Coin+Candylad Coin) and digital currency investment, focusing on planning and establishing a generous community, and combination NFTs, SWAP cross-chain aggregation, metaverse and other application hot spot to provide new charities Supply data blockchain to boost the improvement of public social welfare and charity. The project will be launched simultaneously in many countries around the world with the ultimate goal of creating a more open, clear, reasonable and trustworthy charity platform on a global proportion.

Candylad Coin health - The Candylad Coin Project sets its sights on becoming the defining Impact Investment Token on the Solana Chain Network.Candylad Coin project will operate in defined phases, each with a unique charitable cause at its focus. Phase 1, for example, Candylad Coin concentrate all its efforts on aiding people in its battle against Covid-19 .

Cryptocurrency donations are more transparent, faster, and more cost-effective than conventional currencies. Because the blockchain ledger is public, the flow of money is actually very transparent — arguably more so than

conventional currency systems, which require third parties to interact and monitor transactions. This also reduces costs, both in terms of fees and time.

Tokenomics

Total Supply : 690,000,000

Buy/Sell Tax : 0%

MARKETING STRATEGY

Charity

Earn rewards for the best charity token on Solana Chain. A unique coin moulded by the community, looking to benefit the lives in this world to move forward together to the better future.

Vet Influencers

Influencer marketing is not a new concept. Around 2010 is when we saw a surge in influencer marketing. Crypto and NFT influencers have the ability to affect the worth of a cryptocurrency based on their recommendations. According to research, approximately 90% of buyers would prefer to make their purchase based on the recommendation of a trusted influencer rather than a media ad.

SocialMedia

While it first began with celebrities, it has expanded thanks to social media (Instagram, TikTok, Youtube, etc.) into a multi-billion dollar industry. And we will be on the different platforms with the faces you familiar with.

PromoEvents/Giveaways

Like many crypto projects, we want to reward our early supporters and encourage adoption as we continue to grow. We think the best way to do that is by furthering crypto adoption by using Airdrop (in this case giving it away as a promotional offering).

Authoritative KYC Audited

The purpose of KYC is to reduce the risk of identify theft, money laundering, financial fraud, and the financing of criminal organizations. KYC helps manage risks and helps to understand customer behaviors. This importance of the KYC process requires intermediaries to collect and verify basic details of customers which includes their name and authorized signatures, legal status of an entity or person, the identity of owners on the account and other information depending on FI risk approach.
